

Doable Evangelism Course Consult Details

Want to train people in your church in Doable Evangelism? We've developed a Course that you can use and a Consultation process that can ensure your success. Here is what that looks like.

The DE Consult package includes a digital copy of the four *and* six-week course (a participant's guide and facilitator's guide for both versions) in a PDF format. The four-week version is in 75-90 minute segments, and the six-week version is in 60-minute segments, but the content is identical in each. You also get some promotional pieces, including a copy of "Three Minutes with Three Lost People", which you can also use in the course.

It also includes *six-to-eight one-hour phone/conference calls* with Randy Siever, and/or another experienced DE practitioner, as you go through your first DE Course. We'll train your facilitators and walk with them through the entire course. After completing your first course, you can run the course as often as you like on your own. The materials are yours to duplicate forever.

Once we determine a start date, we'll set up the first training call with you and/or your facilitators (you need at least two people, but you could have more if the group is large enough). Facilitators will have to have read "Evangelism Without Additives" (formerly titled, "AKA:Lost"), by Jim Henderson, prior to the training call. It is preferable to have facilitators attend a DE Seminar in advance, if at all possible.

We will have one more training call prior to the first meeting to go over the material for that session. We will then have a debrief/set-up call after each session, usually right after each session.

Materials and consultation service cost: \$1200.00

In addition, you'll need to purchase the following items in preparation for the course:

1. Sufficient copies of "*Evangelism Without Additives*", by Jim Henderson, for each participant (it's the textbook...available on our website for less than \$12.00 each).
2. One copy of our DVD, "*The Lost Interviews*" (available on our website for about \$20.00).
3. One copy of the movie, "*The Big Kahuna*" (available on Amazon.com for about ten bucks, I think). We'll send you the time marks for a couple of clips from this movie (*Please note*: it's rated "R" for language, but it's really quite a remarkable story starring Kevin Spacey and Danny DiVito...and the clips are pretty clean).
4. You have a choice of video clips for one segment in week one. We will send you the free option ("Three Minutes With Three Lost People"), but I recommend "Bullhorn" by Rob Bell (Nooma.com, about \$15.00).

*If you would like to talk to Ken Sweers, pastor of outreach at Immanuel Reformed Church in Grand Rapids, please email him at: ksweers@immanuelreformedchurch.org. He would be happy to share his own experiences with the DE Course Consult in his church, and he is actually the one responsible for the course being available in a six-week format so it will fit into a Sunday School hour.

To get your DE Course Consult package started, contact Randy Siever, director of Doable Evangelism with Off The Map, at randy@offthemap.com. We'll send you an agreement form with further instructions to get going.
